Meat Science **19** (1987) 316–318

CONTENTS OF VOLUME 19

Number 1

Post-mortem Metabolism in Fresh Porcine, Ovine and Frozen Bovine Muscle . 1
PETER LUNDBERG, HANS J. VOGEL, STEFAN FABIANSSON and HÅKAN RUDERUS (Sweden)

Changes in the Chemical Composition of Rabbit Meat During Growth . . 15
J. DELTORO and ANA M. LÓPEZ (Spain)

Effect of Delay Time Before Chilling on Toughness in Pork with High or Low Initial pH 27
A. J. MØLLER and T. VESTERGAARD (Denmark)

Clinical Biochemistry and Pathology of Mature Beef Cattle Following Ante-mortem Intravenous Administration of a Commercial Papain Preparation 39
R. BRADLEY, D. T. O'TOOLE, DOROTHY E. WELLS, P. H. ANDERSON, PATRICIA HARTLEY, SYLVIA BERRETT, J. E. MORRIS, C. G. INSCH and E. A. HAYWARD (Great Britain)

Accelerated Production of Dry Cured Hams 53
N. G. MARRIOTT, P. P. GRAHAM, C. K. SHAFFER and S. K. PHELPS (USA)

Effects of 2-Hz and 60-Hz Electrical Stimulation on the Microstructure of Beef . 65
G. TAKAHASHI, S.-M. WANG, J. V. LOCHNER and B. B. MARSH (USA)

Research Note

Determination of the Extent of Heat Treatment in Canned Hams by Use of the Phosphatase Test 77
L. KÖRMENDY, É. RÉKASI and I. FETTER (Hungary)

Book Review 81

Number 2

Comparative Action of Cathepsins D, B, H, L and of a New Lysosomal Cysteine Proteinase on Rabbit Myofibrils 83
A. OUALI, N. GARREL, A. OBLED, C. DEVAL, C. VALIN (France) and I. F. PENNY (Great Britain)

Fat Content and Fatty Acid Pattern in Muscle and Adipose Tissue from Differently Reared Calves 101
MARKUS SEEWALD, HANS M. EICHINGER and HEIMO SCHERZ (West Germany)

Meat Science (**19**) (1987)—© Elsevier Applied Science Publishers Ltd, England, 1987.
Printed in England

Comparison of Ultrasonic Measurement of Backfat Depth on Live Pigs and Carcases with a Digital Recording Instrument 111
E. B. GREER, T. W. LOWE and L. R. GILES (Australia)

Comparative Lipid Composition of Porcine Muscles at Different Anatomical Locations 121
N. SHARMA, G. GANDEMER and R. GOUTEFONGEA (France)

The Use of Video Image Analysis for Quantitative Measurement of Visible Fat and Lean in Meat: Part 3—Lipid Content Variation in Commercial Processing Beef and Its Prediction by Image Analysis 129
PAUL B. NEWMAN (Great Britain)

The Use of Video Image Analysis for Quantitative Measurement of Visible Fat and Lean in Meat: Part 4—Application of Image Analysis Measurement Techniques to Minced Meats 139
PAUL B. NEWMAN (Great Britain)

Biochemical Factors Influencing Metmyoglobin Formation in Beef Muscles . 151
M. RENERRE and R. LABAS (France)

Announcement 167

Number 3

Changes in Several Constituents During the Ripening of 'Chorizo'—A Spanish Dry Sausage 169
A. L. LOIS, L. M. GUTIÉRREZ, J. M. ZUMALACÁRREGUI and A. LÓPEZ (Spain)

Effect of Modified Gas Atmosphere Packaging After Dip Treatment on Myoglobin and Lipid Oxidation of Beef Steaks 179
TAKAHIDE OKAYAMA (Japan)

Effect of Post-mortem Storage on Ca^{++}-Dependent Proteases, Their Inhibitor and Myofibril Fragmentation 187
M. KOOHMARAIE, S. C. SEIDEMAN, J. E. SCHOLLMEYER, T. R. DUTSON and J. D. CROUSE (USA)

Investigation of the Levels of N^{τ}-Methylhistidine in a Range of Pork and Chicken Meats 197
A. D. JONES, A. C. HOMAN and D. J. FAVELL (Great Britain)

Effect of Electrical Stimulation and Temperature on Biochemical Changes in Beef Muscle 207
A. C. KONDOS and D. G. TAYLOR (Australia)

Effect of Acid Decontamination of Beef Subprimal Cuts on the Microbiological and Sensory Characteristics of Steaks 217
G. R. ACUFF, C. VANDERZANT, J. W. SAVELL, D. K. JONES, D. B. GRIFFIN and J. G. EHLERS (USA)

Variations in the Tensile Adhesive Strength of Meat–Myosin Junctions due to Test Configurations 227
PETER P. PURSLOW, SUSAN M. DONNELLY and ANDREW W. J. SAVAGE (Great Britain)

Number 4

Photooxidation of Oxymyoglobin. Wavelength Dependence of Quantum Yields in Relation to Light Discoloration of Meat 243
G. BERTELSEN and L. H. SKIBSTED (Denmark)

Bovine *Longissimus dorsi* Muscle Glycogen and Color Response as Affected by Dietary Regimen and Post-mortem Electrical Stimulation in Young Bulls . . 253
M. F. MILLER, H. R. CROSS, M. J. BUYCK and J. D. CROUSE (USA)

Species Identification of Autoclaved Meat Samples Using Antisera to Thermostable Muscle Antigens in an Enzyme Immunoassay 265
E. K. KANG'ETHE and J. M. GATHUMA (Kenya)

Microbiological Quality of Sausages Containing Chickpea Flour (*Cicer arietinum*) 271
M. M. VERMA, D. A. LEDWARD and R. A. LAWRIE (Great Britain)

Autofluorescence of Adipose Tissue Measured with Fibre Optics . . . 277
H. J. SWATLAND (Canada)

Effects of Muscle pH on Pressure-induced Changes in the Sarcoplasmic Reticulum 285
DOUGLAS J. HORGAN (Australia)

An Assessment of the Effects of an Alternative Method of Carcass Suspension and Conditioning on the Tenderness of Beef 293
A. O. I. FAPOHUNDA and A. OKUBANJO (Nigeria)

The Influence of Diet and Time on Feed on Carcass Traits and Quality . . 303
R. K. MILLER, H. R. CROSS, J. D. CROUSE and J. D. TATUM (USA)

Book Review 315
